

THE WONDER OF MUSIC AND MOVIES

Grades 7-10

Log In

Which genre of music did you choose at Log In? Name two other genres of music that you are familiar with.

Signal Stations

When you're editing your picture, what happens when you choose "pixelate?" Where does the term "pixelate" come from?

Anytime Anywhere (Ramp)

The *Daguerreotype*, invented by Louis Daguerre, sped up what process developed in France in 1826?

In 1976, the *VHS Videocassette Recorder* was most popular for doing what?

HDTV Studio

Describe what you did as the on air talent (host or field reporter) to make the story compelling to your audience?

During the playback of the broadcast, what elements were added to the visuals and sound to make the program more dynamic?

Animation Studio

When designing a *Computer Generated (CG) set*, what are some ways you can adjust the atmospherics?

Dance Motion Capture

What areas of your body are the video cameras in the motion capture pod tracking?

Other than in animated movies, where else might motion capture technology be used?

Movie Maker

What audio choices did you make for your movie trailer?

What location and title did you choose for your movie trailer?

Music Mixer

What were some ways you edited or re-mixed Alicia Keyes' song?

We hope you enjoyed your visit to Sony Wonder Technology Lab!
